

“The Foundation - Fast Track Your Results”

Volume 1

Welcome to GVO's online business report. Vol 1 "Online Business Foundation – Fast Track Your Results"

Where does building an online business all begin, and what is required to make an impact with your online business? First of all, you will need a starting point and a solid foundation to build your business. Just like pouring concrete as a solid foundation to building a structure.

Yes, it all starts with a solid foundation. In my books, the foundation of any online business is web hosting. You can not run a successful online business model without it. It's your Global gateway to the masses. As you are well aware, there are many web hosting service providers. Its to find the perfect balance for your business. Do not always go after or seek out the lowest price point. I always say, what is the point of having a website and having it lost in the cyber world. If you are not collecting data and profits from your website consider it lost. The key is to find that balance so that your web host and website or sites work for you.

It is a 100% guarantee that if you register for only a web hosting account the chances of collecting leads and generating sales are ZERO! It takes a series of marketing tools tied to your web hosting account in order to generate leads that build your mailing list and sales. This is one aspect that unfortunately most of the population does not understand. The ones that do understand will sometimes use third-party systems and tie them to their web hosting accounts making it possible to generate leads and sales, but this method requires a bit more work and understanding on how it all works and how to put it all together.

In truth, a small bit of research needs to be done. What's the point of getting your Domain name and sites hosted if you do not have the correct tools to market your business with? **This is exactly what separates GVO web hosting from any other web hosts. They truly give you everything that is required to market your websites through your web hosting account and it's all included.** Everything from a direct Emailing autoresponder system, web conferencing, a complete video producing system and so much more.

All these tools are needed for communication, branding, and building the know like and trust with your audience which will empower, grow and drive your business forward. Are you looking for a solid and reliable web hosting company for your online business plan? Maybe looking perhaps for a competitive business advantage? Let's start by breaking things up into simple forms. You must understand that you can not successfully run an online business with just web hosting. It takes a series of systems to autopilot your business for success.

You will want to check out a few things while shopping around for a good reliable web hosting provider. Check out their track record, and see how many years they have been servicing clients worldwide. Check out the companies support methods and determine if you and your business will be in great hands.

To understand the basics of finding a great web host there are a few key principles that will add to your success. Take a look to see what other products and services they might offer to help in building your business. By keeping all systems and services under the same umbrella/account it will make things much easier to manage, by also saving you an incredible amount of money both short and long term.

GVO, Global Virtual Opportunities has been providing **web hosting services and business building marketing tools** for well over two decades. Yes for twenty-plus years they have embraced the digital world by offering turn-key business-building solutions that have helped tens of thousands of people generate an online income from their websites.

Simply put if GVO company can make you successful online, it creates incredible retention and customer longevity for their own business model. GVO company has one goal and that is to get you online generating leads and profits with your business as quickly as possible. It's good for you and it's good for them!

Once we can all agree that web hosting is the foundation of all online businesses. Ask yourself this. What else will I need to accelerate my business, a website maybe? No worries here, you can either build a website out yourself or have the GVO design team build one for you. The GVO design team will have a website designed for you, up and live to the world! Branding you, your business within a three-day turnaround if you so wish to do so.

Creating a solid brand is very important in building trust with your audience. Just as important, the communication marketing tools that GVO includes for free on all its **reselling web hosting accounts**. These very important marketing tools help in the ability to build the know, like, and trust factor rather quickly with your clients and prospects. When people trust you, they will buy and listen to you.

GVO includes many powerful marketing tools that tie directly to your web hosting account, and yes it's all under the same umbrella/account. Included at no extra cost to you, they include a complete autoresponder. Which is a direct email marketing platform where you can instantly follow up with your subscriber base and create automatic email follow-up messages.

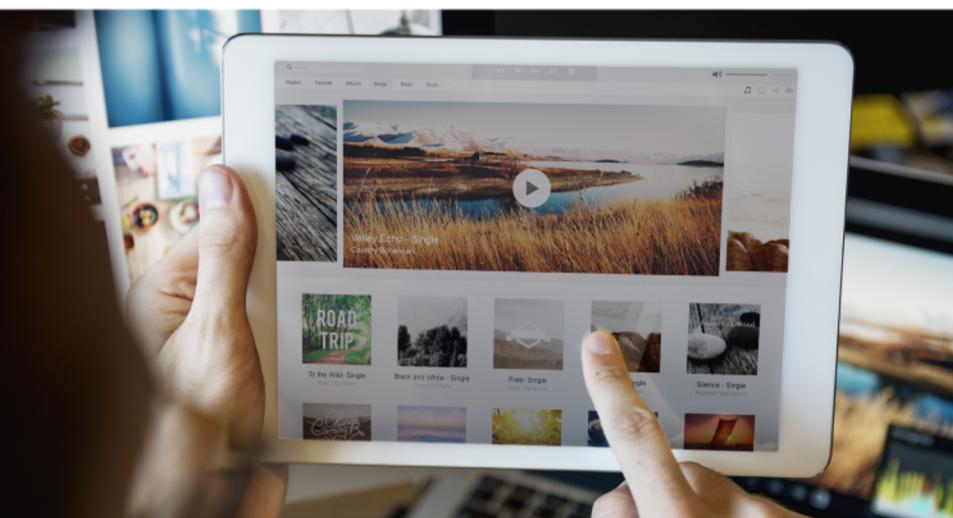

GVO includes many powerful marketing tools that tie directly to your web hosting account, and yes it's all under the same umbrella/account.

Just this autoresponder system alone anywhere else far surpasses the cost of any **reseller web hosting accounts that GVO offers**. Yes, it's included with your hosting account.

The goal is to have your audience and prospects get to know you and your business. Once the know, like, and trust factor is built you have a license to print money even while you sleep. In a nutshell, we have covered the foundation, web hosting, and the immediate email follow-up communication system, autoresponder.

This is not all that GVO includes. GVO also offers a full video-based platform where you can upload/record video on demand and host all your videos in your video library for immediate or future uses.

Why video and why is it so important?

Video offers instant social proof and is the number one tool for branding.

Why video and why is it so important? Video offers instant social proof and is the number one tool for branding. Would Coca-Cola or Geico be as successful without video? No of course not.

The most important part is not to get discouraged while building your business. It does require work, dedication, consistency, and most of all learning! I constantly hear from people, Ah I give up or this does not work. Many people expect to have success literally overnight and I can tell you this does not exist. It's a process and there is no way of getting around this. When I question them and ask, do people just become doctors, mechanics, dentists, or store clerks? They always reply with no! Exactly, you do not just become! It takes education, learning, and processes. Then I plainly state that your online business is no different. It takes work and education. Yes the more you put into your business the more successes you will receive.

Now that we have cover web hosting, autoresponder, and video which are all included with **GVO's reseller hosting accounts**. They do offer one more very important global marketing tool, and that is web conferencing. Which allows you to communicate in real-time with customers and prospects. Including team building which allows for stellar presentations, while building massive social proof with your brand and company.

As you can see GVO is not just your average web hosting company. They give a tremendous value which will impact your business very quickly. For those of you that are keen on fasttracking your business, there are many other great attributes to GVO.

If you have the chance and become a valued customer of GVO you will also see that they offer traffic, leads, and clicks at an additional cost, so that if you wish you can fast track and start building a hot list of subscribers for your business model right away. Web hosting is not just web hosting when it's all in one location, tied to all the **best business building tools** on the web.

It takes a series of things that are required for stability and growth for your online business. I know firsthand that GVO company is in a solid position to help you and your business grow if you have trust in the process. Including these marketing tools below is what separates GVO web hosting from all other services, giving your business a competitive advantage.

NECESSARY MARKETING TOOL	COMPETITION	OUR SOLUTION
Email Marketing Software	Aweber \$50.00 Month	Eresponder Pro FREE
Web Conference Software	GoToMeeting \$49.00 Month	GVO Conference FREE
Video Streaming and Creation Services	Vimeo \$9.95 Month	Easy Video Producer FREE
	Total Cost: \$108.95 Month X	Total Investment: FREE ✓

All These Marketing Tools Come FREE With Our Reseller Web Hosting Accounts! 

A short story in relative terms. It's centuries-old but the same applies today! A Knight's number one rule: Never announce or brag that you are a Knight, just present and act as one should being a Knight.

A Knight is trained for all successes in life and for battle. A Knight always continues to strengthen his skills. Although the Knights methods date back earlier than the 1400s, they still apply today. It takes work, dedication, and the correct tools to achieve greatness and to make your quest more efficient giving you more chances to succeed in life and in battle.

With GVO offering a solid foundation with web hosting, autoresponder, video platform, web conferencing, and site-building. It is much like a Knight with a horse, sword, shield, armor, and dagger. It's the complete package for success.

A great Knight uses his power to empower others, just like a great powerful company offering services and tools for those that seek success and fortunes. A solid foundation can be compared to a Knight's horse. Being solid and strong, giving you an advantage that can get your business moving fast! When you combine it all, this makes for an incredible journey for success when efforts and determination are applied. We stand strong and proud by offering the best to our customers! Your success is our success. For over two decades our clients have generated massive wealth and success from following the same principles as a Knight.

If you are looking for a competitive advantage in the industry and looking to build a massive mailing list of potential buyers, building a top-notch brand, and generating traffic, leads, and sales for your online business. Then GVO can help you. Have trust in the process. We hope that you enjoy the new pricing, new updates, and an unmatched compensation plan. Is it not time to turn your business into a success story?

LIFE IS:
WHAT HAPPENS ○
TO ME
WHAT I MAKE ○
HAPPEN

Yes, you can even sell web hosting space under your account!

Please understand that all these business-building marketing tools discussed above are all included with any of **GVO's Reselling Web Hosting Accounts**. Obtaining a Reseller Web hosting account not only gives you the web space to run and operate your own online business, but it also gives you the ability to offer webspace under your account to others. Yes, you too can become a web hosting provider!

For example, if you registered for a GVO Titanium reseller web hosting account at \$44.95/mo not only do you receive all the marketing tools along with your hosting space, you can also sell web hosting and put 100% of the profits into your pocket.

Assume that you purchase a **GVO Titanium Reseller Web Hosting account** with all the business building tools included! Let's say you use and divide 70 000MB into as many smaller parts of web hosting space as you want. For example; You can split 70 000MB into 300 separate accounts each with 125MB of disk space. That way, you can host 300 new individual websites for 300 different customers. Leaving you with 32 500MB for your own personal use!

*In this example, I use 70 000MB as your web hosting space when in actual fact your account will be **UNLIMITED!***

If you were to charge \$10.00/mo from each of your 300 customers, how much potential profit could you make?

- You pay \$44.95/mo

- For a year, you will have invested \$539.40 For your Titanium reseller hosting account with all the marketing tools included for your own business.

- You sell 300 hosting accounts – just hosting space at 125MB each, and you sell your hosting for \$10/mo. (Charge whatever you like, just do not sell yourself short).

- You will collect a total of \$3000/mo. - In one year, that will be \$36 000.

- Subtract \$539.40. Which is your initial overhead cost for your hosting services for the year from \$36 000, and you will have a profit of about \$35 460.

Now I have sliced the megabytes to be quite high for webspace for your standard website. In most cases, you could slice the MB's down again to create more space for future packages. As you can see the profits that can be made from your **GVO reseller web hosting account** can be highly rewarding and can easily add as a primary or a second or third revenue stream for you.

We hope that this small introduction, what to look for in a web host can help clarify what to look for and how having everything at your fingertips can help your business grow with many successes.

If you should have any questions in regards to GVO and its services you can access **GVO Live Chat**.
